Parents,

Students have a lot of things that influence them; friends, television, magazines, cell phone ads, but church is an influence that is positive. Church should be a place where students feel loved, supported and accepted for who they are. This happens when they have a community of peers and adult leaders who invest in them. That's why it's so important to have SNL events that create community not only between students but also with their adult leaders. Hanging out, laughing, talking and creating memories creates community so when students need help, they have another place to turn. Students not only grow as people but grow in their faith. This even seems like just a Lock In, but it's so much more. It's a building block to creating a strong community within the student ministry and we are asking for your help. First, please encourage your student(s) to attend; even if it's just for half the night. Second, please volunteer for a shift. You will meet other students in the ministry and learn more about what we are trying to do. Finally, please keep the student ministry in your prayers as we begin to discern the direction God is calling us to go.

Thank you so much,

They are facing the ocean, and the sun is setting behind them, creating a bright orange and yellow glow.
